**DETAILED ACTION**

***Response to Amendment***

1. The after-final request for consideration was persuasive and has been entered.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-9, 14, 16-18, 20-28, 30 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by White, 5491986.
4. Claims 1, 2, 4-8, 12, 16, 20, 22-27, 30 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Powers, 1951706.
5. Claims 10 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Powers. Powers discloses an oval aperture mounting area (2) that is shaped to conform to the contour and dimensions of the jewel or other article designed to be set in the aperture (lines 41-44). Therefore, Powers inherently discloses the opening of the aperture having a circumferential dimension at least greater than half of a circle to accommodate round cut diamonds or pearls, which have circular cross sections. Jewels having a circular cross section were known at the time of the invention.
6. Claims 13, 15, 19, 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

7. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
